

DL7R10

Model #: DL7R10

The Green Power 6 in. 9.5-Watt (65W) LED Down light (E)* produces 625 lumens with 9.5 watts of power and can last for up to 35,000 hours. The LED can be used to replace a standard 65-watt bulb. (E)* means this bulb meets Federal minimum efficiency standards.

- Estimated Yearly Energy Cost: \$1.14 (Based on 3 hrs. /day, \$0.11/kWh. Costs depend on rates and use.)
- Energy Used: 9.5 watts (equivalent to a 65 watt standard incandescent light bulb)
- Uses 85% less energy compared to a standard incandescent light bulb
- Recessed ceiling light and suitable for use in dry locations
- Integrated LED light source and trim, for 6 & ¼ in recessed housings
- Powered by Nichia
- Made in the USA
